

Edge Beveling Machines **KF 500**

SKU : 101355

Stationary bench-type machine for deburring and chamfering of various materials. The directly driven carbide cutter head provides superior work results plus a more precise and better surface quality compared to grinders. Bevel angle and bevel width can be adjusted as needed. This model is used predominantly in steel construction and mechanical engineering.

- Compact dimensions:
- Robust design
- Immediately ready to use

TECHNICAL SPECS

WORKING AREA

Angle adjustment	15 - 45°
------------------	----------

DETAILS

Speed (max.)	3400 1/min
--------------	------------

DRIVE CAPACITY

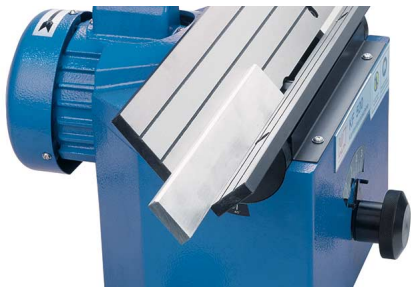

Motor rating main drive	0.75 kW
-------------------------	---------

Supply voltage	230 V
----------------	-------

MEASURES AND WEIGHTS

Table length	500 mm
--------------	--------

Weight	29 kg
--------	-------

PRODUCT DETAILS

- Max. bevel width 3 mm
- Excellent surface quality
- Quicker and more uniform results
- Very long service life due to reversible tool tips (usable on 4 sides)

STANDARD EQUIPMENT

Set of cutting inserts
Operator manual
