

Edge Beveling Machines KF 6000 OPTIEDGE

SKU : 101360

KF 6000 OPTIEDGE is a cost-effective portable edge beveler. Proven even under rough use conditions, this device is the optimal choice for chamfering or beveling plates from wide range of materials.

- powerful servomotor for infinitely variable

TECHNICAL SPECS

WORKING AREA

Guide bar length	230 mm
Chamfer width, max.	10 mm
Speed	6000 1/min
Angle adjustment	15 - 45°

DRIVE CAPACITY

Motor rating main drive	0.75 kW
-------------------------	---------

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	0.3 m x 0.23 m x 0.18 m
Weight	9.28 kg

PRODUCT DETAILS

- Proven under rough, commercial use conditions
- For deburring, chamfering, bevelling, and cost-effective weld seam preparation at straight workpiece edges
- One machine for two applications: Use directly at the workpiece to machine large dies, includes a special mount for easy change-over to stationary operation
- Suitable for steel, stainless steel, aluminum, non-ferrous metals and acrylics

STANDARD EQUIPMENT

Cutter head
Dies
Operator instructions
