Manual folding machines - MB-1000L

The MB Folder models MB 700L - 1300L are light, easy to operate, manual machines particularly suited for folding of the thin sheet metals.

The machines are offered with clamping bar: L - low 45°. It is easy to remove the under-frame for transportation or bench mounting.

A special bench-mounting kit is offered as optional equipment.

All folding machines can now be easily convert from L - low to H - high or S - with segments with the additional tooling.

The models MB-L are machines which are suited to standard straight folding operations, and because of their low clamping beams, are ideal for channel sections and Z-profiles.

Optional equipment:

Back gauge, radius blade R=2,5 mm, fittings for bench mounting and roller shear.

Product specification

Capacity (mm)	1050 x 1,25
Sheet thickness steel (mm)	1,25
Max. Opening (mm)	40
Bending angle	135°
Length (mm)	1260
Width (mm)	510
Height (mm)	1000
Net weight (kg)	80
